

SWINE MARKET SLIGHTLY UP

(Courtesy Sunday's Journal.)

PORTLAND, Ore.—While there was only a fractional decrease in the amount of swine marketed at North Portland for the week, the price was sharply higher. A better feeling prevailed generally in the hog trade here. Killers seemingly realized that they were ruining the industry here by their intense bearish tactics and were more inclined to do something. Heretofore, they have purchased hogs only on the theory that they were doing raisers a special favor in taking hold.

General hog market range:
Best light \$7.25 @ \$7.30
Medium light \$7.10 @ \$7.15
Good to heavy \$6.80 @ \$7.00
Rough to heavy \$5.50 @ \$6.00

Cattle Market Is Weaker.
Despite the fact that a nominal amount of business passed early in the market for cattle at \$7 for tops, the trend of the trade is weaker at North Portland. Killers are showing little activity in the buying pens.

The movement of Idaho and California cattle to the east and middle west is sure to have an effect upon the trade here later in the season.

General cattle market range:
Select steers \$6.50 @ \$6.75
Best hay fed steers \$6.25 @ \$6.35
Good to choice \$6.00 @ \$6.25
Ordinary to fair \$5.00 @ \$5.75
Best cows \$4.90 @ \$5.25
Good to prime \$4.50 @ \$4.75
Select bulls \$4.50 @ \$4.75
Fancy bulls 4.25
Ordinary bulls 2.50 @ 3.50
Best calves 1.60 @ 2.50

Mutton Is Scarce.
With prices for mutton here entirely out of line with those at middle west centers, it is but small wonder that the interior should be making record breaking shipments of mutton and lambs to these places while practically nothing is coming forward to the local market.

Interior interests are no longer inclined to favor this market with supplies when they can secure better returns elsewhere. The condition of the market has been unnatural and until it is remedied the trade here may expect little stuff to come forward to the open market.

General shorn mutton market:
Choice spring lambs \$6.15 @ \$6.25
Common spring lambs \$5.75 @ \$6.00
Choice yearling wethers \$5.00 @ \$5.50
Good yearlings \$4.75 @ \$5.00
Old wethers 4.75 @ 5.00

Just in time with kidney pills

Means curing the backache, the dizziness, the urinary disorders

That so often come with kidney troubles.

Doan's Kidney Pills are for this very purpose.

Here is testimony to prove their merit.

Mrs. W. H. Bennett, 325 N. Fifth St., Walla Walla, Wash., says: "I had rheumatic pains in my limbs and a lame and weak back. My kidneys didn't act regularly and the kidney secretions were scant. I was feeling so poorly that I knew I must do something and I used two boxes of Doan's Kidney Pills. They gave me great relief."

Price 25c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bennett had. Foster-Milburn Co., Props., Buffalo, N. Y.

Stories From the War Zone

BY WILBUR S. FORREST.
(United Press Staff Correspondent.)
LONDON, Aug. 12.—How Emperor Wilhelm foresaw 20 years ago the possibilities of the Maxim gun, now so prominent in war reports, and ordered vast quantities of this death-dealing weapon, was told here today for the first time by Sir Hiram Maxim, the aged American inventor.

Today the German army has approximately 50,000 of these machine guns and the British government and other governments are making them as fast as they can, all of which proves that the day of the single shot rifle is past in modern warfare, says Sir Hiram.

It was Albert Edward, Prince of Wales, later King Edward, who called the Kaiser's attention to the Maxim gun, says the inventor. The king was on a visit to his imperial nephew when one day he inquired casually of Wilhelm if he had chanced to notice the Maxim gun. The Kaiser acknowledged he had not but immediately declared his interest when told it could fire bullets at the rate of 600 a minute.

This happened to be one of the newly invented Maxims on a range not far from the palace and together with his guest the Kaiser went to the range to watch it perform. Sir Hiram, who was present, adds:

"Guns were sent to have everything ready and when the Kaiser and the prince visited the grounds they found four machine guns and four big targets at a distance of 200 metres. The old Gatling gun was first fired. It was very heavy and had six barrels. The Nordenfeldt five-barreled gun was also fired and the two-barreled Gardner. It required four men to serve each gun and when they attempted to work the guns too rapidly they seemed to jam. They got through with 150 to 200 rounds a minute. One man, an experienced gunner, then sat on the tail of the little Maxim gun, carefully adjusted the sights, pulled the trigger and 233 rounds went off in slightly over a half minute. The Maxim gun is loaded and fired by its own recoil."

The Kaiser and the prince then walked down and examined the targets. The hits made by the hand worked machines were scattered all over the place. These guns had been distributed by the working of the cranks and levers, whereas the Maxim, not being interfered with by an external force, had made nearly all hits in the bullseye or close to it.

"When the Kaiser returned, he placed his finger on the Maxim gun and said, 'That is the gun, there is no other.' He then caused orders to be given to turn these guns out very rapidly and in vast quantities, and

KEEP URIC ACID OUT OF JOINTS

TELLS RHEUMATISM SUFFERERS
TO EAT LESS MEAT AND
TAKE SALT.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.

pen, two-thirds of all the casualties among the Japanese was caused by Maxim guns and in the present war the most important arm is without doubt the automatic machine gun firing rifle cartridges. It is fast supplanting the hand rifle.

It is with this weapon that a thin line of Germans, stretching across the continent, is able to hold back the French and English while vast hordes of the Kaiser's men are driving back the Russians on the eastern front.

Facts Wanted Regarding Crop Yields; Farm Reports Desired

So much doubt exists this year regarding the wheat yield that the East Oregonian will endeavor to secure much exact data from first hand sources. With this aim in view farmers are asked to fill out the blank below as soon as their harvesting has proceeded sufficiently to give them an accurate line on what the yield will be. By special arrangement the information gathered in this manner will be tabulated and given to the government crop reporting officials, thus helping them adjust their estimates as to the actual yield. It is desirable to get the exact truth as to the situation and the co-operation of farmers will be appreciated.

Please fill out the following blank and mail the same to the East Oregonian. If you prefer to 'phone, do so. The East Oregonian's number is ONE.
